Pioneer DJM-800 Professional DJ Mixer

The DJM-800 mixer gives professional DJs the tool they need to expand their musical horizon, with capabilities for mixing records, remixing, producing and performing. The new DJM-800 incorporates features recommended by many professional DJs and club engineers, raising the bar on sound fidelity and ease of mixer operation.

A very important feature of the DJM-800 is its high quality 24bit/96kHz sampling and effect capabilities. The DJM-800 incorporates a high-pass/low-pass filter, notch filter and bit crusher effect for all channels. In conjunction with the additional Beat Effects, 50 combinations of effects are possible.

Digital inputs and outputs allow for connection with other digital-capable equipment for a fully digital signal chain. Input frequencies of 44.1/48/96kHz are compatible and output frequency is selectable between 48/96kHz.

Other features include:

- 4 channels
- Inputs: 4 digital, 5 line, 3 turntable, 2 mic
- 3-band channel EQ (-26dB to +6dB)
- 2-band mic EQ (-6dB to +6dB)
- Assignable MIDI controls
- Cross-fader assign
- Fader-curve adjust
- Fader start
- Mic talk-over feature

Pioneer CDJ-1000 Mk3 Professional DJ CD Player

The Pioneer CDJ-1000 digital deck took the DJ industry by storm when it was released in 2001, offering the incredible feel and performance of vinyl at a DJ's fingertips. Now Pioneer has improved the design of this industry standard with the intuitive CDJ-1000 Mk3.

With the same design and layout as the CDJ-1000, the Mk3 has been fine-tuned to increase sensitivity, creativity and control for DJs, so that cueing, scratching and stretching a track in Vinyl or CDJ mode feels smoother and easier than ever. Recognising the importance of manual pitch bending, Pioneer has made even finer adjustments to the CDJ-1000's tempo control function to make it more accurate than ever before.

Features include:

- **NEW:** Full MP3 support including VBR files
- **NEW:** Jog feeling adjust
- **NEW:** Hot loop feature
- **NEW:** 'Resume play' after accidental ejection of CD
- **NEW:** Super fast and more accurate manual search
- **NEW:** Backlit Hot cue, Hot loop and Re-loop buttons
- Non-slip metallic finished, touch sensitive jog wheel
- Quick start
- Wave search
- Real-time seamless loop
- MMC/ SD card slot
- Fader start
